

**KEY  
POINTS**

**Britain loses 2 million of its population**  
**Enormous social division**  
**Loss in cultural diversity**

**Global industries leave London**  
**Public services lose key staff**  
**Increase in red tape for business**

## WHAT ARE BNP POLICIES?

The BNP's policies on immigration constantly adapt as the party attempt to modernise its image. At a minimum, the BNP would **end all further immigration, expel all illegal immigrants**, and encourage Britons of other ethnicities to migrate through a new system of grants. They would lock down Britain's borders, increasing the funding of border controls by 500%. There would be a new **clause-28 proscription against the promotion of racial integration** in schools and the media.

### Why Britain would be torn apart:

**Population plummets.** Removing the non native population of Britain would involve kicking out 11% of our population, or near six million people.

**No jobs saved.** In the long term, it is an economic fallacy to believe that there are a fixed number of jobs in the world. Polish plumbers, Filipino nannies and Afro Caribbean nurses provide jobs that there simply aren't enough British people who can or want to do.

**No more global industries.** Commercial hubs such as London and Edinburgh depend on being able to attract the bright and the best. Without skilled immigration, industries such as finance, business services, the media and fashion would flee to America or the Far East.

**Public services wrecked.** The NHS loses a huge proportion of its nursing staff. Education loses its cleaners. 10% of the manpower in the armed forces gone.

**Fortress Britain.** In order to ensure absolutely no immigration, Britain's borders would have to be completely locked down. Getting visas for business becomes near impossible. Trade costs rocket as each shipping container and lorry is extensively searched before entry to the country.

**Create social division.** Significant ethnic tension as minorities feel under threat. Constant uncertainty over who will be next to be kicked out. They'd be pushed to the back of queue for public services, and branded as second class citizens. Families torn apart, communities destroyed.
